

# 7 ePayable Myths DEBUNKED

## Myth

## Busted

“Electronic payments are not secure.”

1

**Using MotilityPay could reduce your risk of fraud.** According to JP Morgan Chase, 75% of organizations that were victims of recent attacks used traditional payment service providers. Paper checks are one of the LEAST secure methods of invoice payments available.

“I won’t have as much control over my checks.”

2

It’s actually the opposite! With MotilityPay, you’ll **gain more control and oversight** of what’s being paid and can view that information in real-time.

“Electronic payments are complicated. I don’t have time.”

3

The short amount of time it takes your team to learn MotilityPay will end up saving your dealership countless hours in the long run. Dealers like Seguin RV and DPC Emergency are reporting a **75% time savings with MotilityPay**. Imagine what you could do with that time!

“I can just setup electronic payments through my bank.”

4

Most banks charge for this service. Plus, it’s not integrated with Infinity. **MotilityPay is a free service that allows you to break free of printing and mailing checks – saving you loads of time.**

“We are too small and won’t benefit from electronic payments.”

5

When you have fewer employees, you need to work smarter so your employees can get down to useful tasks that fit their job description. **Companies of all sizes benefit from MotilityPay**. Let us show you just how much you can save!

“I won’t get the remittance information I need.”

6

This is completely false! **An electronic paper trail means data is more manageable and can be accessed right within Infinity**. You will always receive remittance data broken down at the invoice level.

“I don’t have the money to invest.”

7

This is a common misconception because many companies charge for this service. **Motility does not charge for this service!** Plus, you’re saving on checks, postage, ink, and envelopes. Just email us at [info@motilitysoftware.com](mailto:info@motilitysoftware.com) to get started.

“

“I don’t have to sign the check; I don’t have to write the check; I don’t have to pay postage; I don’t have to print the check – It’s really like Christmas! At most we spend 30 minutes on our payables each week.”
